Drag Pack Engines & Parts

WARNING!

Your drag pack engine as shipped from the factory may not be competitive!

Big Power & Reliability

Indy Cylinder Head has Proven Power to make you competitive. Are you sure your engine has the following updates? Head blueprinting including priority valve job, correct chamber volume, matched valve springs with retainers locks and seals, correct pistons, latest cam shaft design, chrome moly pushrods, the best oil pan and windage tray combo plus oil system mods. Convert your engine to Indy valve covers, coil plate, and wires, which allows easy access to spark plugs. Call us for a quote on blueprinting your drag pack engine.
